FIGHT THE PHISH

Know Your Opponent

Email spoofing is the creation of email messages with a forged sender address. Stop and look at the email address before you reply and don't click any unexpected links or attachments.

Report phishing attacks using the bMail web interface:

Open the message
To the right of 'Reply' arrow, select 'More' (typically denoted with three vertical dots)
Then 'Report phishing'

If you are unable to log into bMail forward the message to **phishing@berkeley.edu**
