Grab on to Handy Habits

8 SMART CYBERSECURITY HABITS

• Think twice before clicking on links or opening attachments.
• Verify requests for private information.
• Protect your passwords.
• Protect your stuff. Lock it up or take it with you.
• Keep your devices, browsers and apps up to date.
• Back up critical files.
• Delete sensitive information when it’s no longer needed.
• If it’s suspicious, report it!
