Hover to Discover
Look out for deceptive links

The Trap: You receive an email telling you to “click here” to verify your account.

Your Defense: Hover over the link (don’t click!), or for a touchscreen, press and hold the link (don’t tap!) to reveal the actual URL. (Look in the bottom left corner of the browser window.) Don’t click on a link unless it goes to a URL you trust.

Not sure if it’s a phish? Drop us a line!
