

MSSND #1: Patching and Updates

Updates

iOS

Instructions for manually checking for updates.

Manual Updates with wireless connection

1. Plug your device into power and connect to the Internet with Wi-Fi
2. **Settings > General, then tap Software Update**

3. Tap **Download and Install**
4. If asked, enter your passcode

Manual Updates without wireless connection

If you can't update wirelessly on your device, you can update manually using a computer that you trust. If your computer is using Personal Hotspot on the device that you're updating, connect your computer to a different Wi-Fi or Ethernet network before you update.

1. On a Mac with macOS Catalina 10.15, open Finder. On a Mac with macOS Mojave 10.14 or earlier, or on a PC, open iTunes

2. Connect your device to your computer
3. Locate your device on your computer
4. Click **General or Settings**, then click **Check for Update**
5. Click **Download and Update**
6. If asked, enter your passcode
