

## **Keep computers & electronic devices SAFE when you travel.**

- ☒ Encrypt and password-protect your computer and all devices.
- ☒ Connect securely - avoid free Wifi and use a VPN.
- ☒ If you are going abroad, the computer you take should contain minimum information, i.e. not a regular work computer.
- ☒ Don't leave your devices unattended - keep them with you.
- ☒ Wait to get home before posting photos or comments about your trip to social networking sites.
