

Vendor Profile				
<b>IT Cloud Provider</b> <b>Product</b> Cloud Hosting System  <b>Assessment Date</b> 09/12/2023			<b>Service Description</b> The Vendor was noted as providing the following service(s): IT Cloud Provider - Cloud Hosting System  <b>Domain URL</b> itcloudprovider.com  <b>Vendor Type/Industry</b> Cloud Hosting	<b>Vendiligence™ Overall Rating</b>  <h2 style="color: #f15a24;">SATISFACTORY</h2> Vendor appears to maintain a partially well-formed control environment. Unanswered, unchecked, and unmitigated items should be internally assessed, then accepted or mitigated. Responses appear satisfactory.

Vendor Inherent Risk Profile Summary				
<b>Risk Summary Rating</b> <b>HIGH</b>	<b>YES</b> Personally Identifiable Information (PII)	<b>YES</b> Protected Health Information (ePHI)	<b>YES</b> Cardholder Data (CHD)	<b>YES</b> Client Data

Section Rating Summary			
<b>Data Privacy</b> <b>LOW</b>	<b>Security Testing</b> <b>LOW</b>	<b>Information Security Governance</b> <b>MEDIUM</b>	<b>Sensitive Data Security</b> <b>MEDIUM</b>
<b>Resiliency</b> <b>LOW</b>	<b>Business Continuity</b> <b>LOW</b>		

**Report Comments and Recommendations**

Vendor stated that Personally Identifiable Information (PII), Card Holder Data (CHD) and Protected Health Information (ePHI) is involved in the use of this product/service. Client is encouraged to request evidence that Vendor has a documented Third Party Vendor Management/Due Diligence program in place. Client is encouraged to request evidence that Vendor has a documented PII Retention Policy in place as well as someone in leadership acting in the capacity of a Chief Information Security Officer. Vendor did not provide adequate evidence that data is encrypted in transit or at rest. Client is encouraged to request documentation surrounding current encryption methods. Client is encouraged to request information surrounding the following data security controls we would expect to see: DDoS Mitigation, Wireless Access Controls, Data Classification, Media Sanitization, Breach Notification, Environment Segmentation, and MFA for administrative access. Client is encouraged to request evidence that environmental equipment is properly maintained and serviced regularly.

Legend			
<span style="color: green;">■</span>	A positive or affirmative response to the control category was provided by the vendor.	<span style="color: orange;">■</span>	A response was not provided to the control category by the vendor.
<span style="color: red;">■</span>	A negative or insufficient response to the control category was provided by the vendor.	<span style="color: gray;">■</span>	The control category is not applicable to the scope of the assessment.

## Assessment Of Controls

This assessment identifies key risks to your organization's operations, assets, and customers, posed by current and potential vendors. Each control within this assessment ties back to relevant industry guidance and standards addressing vendor risk, allowing key decision makers to confidently weigh vulnerabilities introduced by vendors and respond to the resulting risks.

Data Privacy		Regulation Mapping <a href="#">↗</a>	LOW
<b>YES</b> Provides notice to data subject about its privacy practices	<b>YES</b> Able to exempt an individual from automated decisions	<b>YES</b> Data is not shared with a fourth party without consent	
<b>N/P</b> Data Protection Officer	<b>YES</b> Able to delete an individual's data	<b>N/P</b> Records of processing activities are maintained	
<b>YES</b> Obtains consent from data subjects where required	<b>YES</b> Able to delete or return all PII at contract termination	<b>YES</b> Vendor allows for full cooperation in audits for clients	
<b>YES</b> Collects Accurate, Up-to-Date, Complete, and Relevant PII	<b>YES</b> Process in place for handling privacy requests (DSARS)	<b>YES</b> Data breach notification/unauthorized disclosures of PII are tracked	
<b>YES</b> Able to Display an Individual's Data and Who It's Shared With	<b>YES</b> Vendor maintains a data privacy code of conduct	<b>YES</b> Data is pseudonymized/de-identified	
<b>YES</b> Able to Export an Individual's Data in a Common Format	<b>YES</b> Persons interacting with sensitive data sign a confidentiality agreement	<b>YES</b> Data is masked where appropriate	
<b>YES</b> Able to Update/Correct an Individual's Data	<b>YES</b> Persons interacting with sensitive data receive privacy training		
<b>YES</b> Able to Exempt an Individual's Data from Sharing/Selling	<b>YES</b> Data is only used for contracted purpose		

Security Testing			Regulation Mapping <a href="#">↗</a>	LOW
<b>NO</b> Penetration tests are performed by internal staff	<b>NO</b> Application security tests are performed by internal staff	<b>YES</b> Vulnerability scans/tests are performed by internal staff	<b>YES</b> Social engineering or phishing performed	
<b>YES</b> Penetration tests are performed by a third party	<b>YES</b> Application security tests are performed by a third party	<b>YES</b> Vulnerability scans/tests are performed by a third party	Frequency of social engineering tests <b>Monthly</b>	
<b>YES</b> Any Medium or higher findings identified during the penetration tests are remediated timely	<b>YES</b> Any Medium or higher findings identified during the application tests are remediated timely	<b>YES</b> Any Medium or higher findings identified during the vulnerability tests are remediated timely	Frequency of social engineering tests (other) <b>NA</b>	

Information Security Governance		Regulation Mapping <a href="#">↗</a>	MEDIUM

DRP	Annually	2/10/2023	5/3/2023												

### Disclaimer

It should be noted that it is the responsibility of the Board of Directors to determine whether the organization agrees with the opinion-based risk level expressed in this report. All information contained in this assessment is the work product of the Venminder, Inc. Information Security Operations Team. Documents listed as Resources Utilized have been reviewed and assessed by an Information Security Subject Matter Expert and this assessment has been reviewed and approved for distribution. For more information on Venminder's Subject Matter Experts, please [click here](#).

The objective of this Assessment is to assess a third party's general controls relating to their ongoing ability to protect data and deliver the products and services for which you have contracted. This assessment is not intended for, nor should it be used for, the purpose of assessing the third party's likelihood of suffering a data breach, attack, or other business impacting event causing the inability to provide contracted services, nor as a guarantee the vendor will follow any assessed plan or meet specified objectives. This Assessment is intended solely for the information and use by the client and is not intended to be and should not be used by anyone else other than the objectives listed herein.

### Rating Explanation

LOW	Vendor appears to maintain a well-formed control environment. Unanswered, unchecked, and unmitigated items should be internally assessed, then accepted or mitigated. Responses appear appropriate.
MEDIUM	Vendor appears to maintain a partially well-formed control environment. Unanswered, unchecked, and unmitigated items should be internally assessed, then accepted or mitigated. Responses appear satisfactory.
HIGH	Vendor does not appear to maintain, or has provided insufficient evidence of, a well-formed control environment. Unanswered, unchecked, and unmitigated items should be internally assessed, then accepted or mitigated. Responses appear insufficient and/or introduce a cautionary level of risk.
SEVERE	Vendor does not appear to maintain, or has provided insufficient evidence of, a well-formed control environment. Unanswered, unchecked, and unmitigated items should be internally assessed, then accepted or mitigated. Responses appear insufficient and/or introduce a severe level of risk.
